D. W. WARRENER CHOSEN AS U.F.A. CANDIDATE

Largest U.F.A. Convention Ever Held in the Constituency.
Eight Names Placed in Nomination. Final Vote Was D. W. Warner, 55, Rice Sheppard, 48. Many Resolutions Passed.

At a meeting of delegates representing the local U.F.A. of the Strathcona constituency, held in the Biltmore Theatre on Wednesday afternoon, D. W. Warner, of Strathcona, was selected as the candidate to contest the forthcoming election, on the fifth ballot.

The convention was announced as the largest and most representative ever held by the farmers in the constituency, and the greatest harmony prevailed throughout. Ninety-seven accredited delegates were in attendance as well as eight members of the executive committee. Mr. A. M. Campbell of the Larch Tree local, was elected as chairman, and Mrs. Rose of Millet, secretary.

Eight candidates were placed in nomination, as follows: Rice Sheppard, Fred Robert, D. W. Warner, Mrs. Ross, W. J. Jackson, E. Sharf, A. M. Campbell and T. P. Baker.

Each nominee spoke briefly, pledging their unqualified support to the platform of the U.F.A., and in answer to a question asked by a returned soldier, stated they would do what they could to help the boys who made a sacrifice for the people of Canada and the Empire.

A number of resolutions were passed, among these being that the candidate of the convention, if elected, could be recalled from the House of Commons. If his actions did not meet with the approval of the electors.

A complete report of the convention will be given in the next issue.

CRIMINAL COURT PROCEEDINGS

The remaining cases not mentioned in our report of last week, that were disposed of at the recent sittings of the Supreme Criminal Court, held here, were as follows:

Rex vs David Eastman—Charged with having a mash for making liquor in breach of the Inland Revenue Act of the Dominion. Alexander Knux for the prosecution, W. J. Logan, K.C., for the defence. Accused was acquitted.

Rex vs Benjamin Cummings—Charged with uttering a forged cheque and falsification of Municipal Pay sheets. This was a jury trial, and the accused was acquitted. R. W. Manley for the accused.

Rex vs Wilhelm Lake—Charged with shooting a mare. Accused pleaded guilty and was let go on suspended sentence of one month, but on his own recognizance.

Rex vs William Wilhelm—Charged with indecent assault. The accused was convicted and fined \$100.00 or in default, one month's imprisonment in the provincial jail at Fort Saskatchewan. Alexander Knux for the accused.

Rex vs Carl Tabler—Charged with theft of his grain by himself, while under seizure by the deputy sheriff at Carleton Place. The accused was acquitted. Alexander Knux, counsel for the accused.

Rex vs Geo. Taylor—Charged similar to the last one above mentioned. Accused was acquitted. Alexander Knux for the accused.

Rex vs Fred Sonnenburg—Charged with killing a heifer belonging to Kelly Bros. ranch, at Hay Lakes, Alberta. Accused was convicted and sentenced to six months imprisonment in the provincial jail at Fort Saskatchewan. H. C. Macdonald, K.C., of Edmonton, for the accused.

Mr. Justice Walsh was the presiding judge and W. H. Odeh, K.C., was the Crown Prosecutor.

COW AND THE HEN BEST LIQUIDATORS OF GROCERY BILL

Although he has been interested in reaching all his life in the west, Hon. George Handley, minister of agriculture, expresses himself as being of the firm conviction that it is the dairy cow and the hen that will generally pay for the grocery bill in Alberta.

Hon. Handley is very much interested and since his accession to his present office has been spending much time in ferreting out new possibilities in the way of markets for Alberta livestock. But in the meantime, he goes on record as favoring a few hens and dairy cattle on Alberta farms.

U. F. A. MEETING

A general meeting of the shareholders of the Co-operative Store will be held on Saturday, October 8, at 2 p.m.

PREMIER WILL MAKE ANNOUNCEMENTS AT EDMONTON BANQUET

Edmonton, Oct. 4—Several important announcements will be made by Premier Greenfield concerning new government policy, when the big reception to the members of the provincial government and of the legislature is given by Edmonton citizens in the armory here on Thursday evening. Premier has announced that he has prepared for that occasion several announcements of important decisions which have been arrived at by the government within the past few days.

What these decisions were and what branch of the administration they would affect, the premier declined to say, stating he would reserve all declarations in that connection until Thursday evening.

THANKSGIVING DAY MONDAY, NOV. 7TH

Legislation passed at the last session of parliament provides that the Monday of the week November 11, the anniversary of Armistice Day, shall be Thanksgiving Day. Thanksgiving Day this year will thus be on Monday, November 7th.

A VITAL ISSUE

(BY WILL HOLMES)
Michael Clark, M.P., of Red Deer, has broken with President Wood, of the U.F.A., and with the progressives in the Federal House, on the eve of a general election. This is an outcome of the differences of opinion existing between the U.F.A., political organization and the farmers on organization held by Mr. Clark and his progressive followers as well as Mr. Bruce and the U.F.A. political organization of the progressive movement throughout the country. This difference of opinion, which will seem a small issue to the casual observer, is one which should be thoroughly understood and discussed as it has a very vital bearing upon the future of Canadian history.

The subject of the debate is described as "The Open Door Policy vs. The Closed Door Policy."

The "Open Door" policy as represented by Mr. Clark, on the one side of the argument, proposes the organization of the progressive movement on the basis of the open door policy, which is the basis of the open door policy. It is the basis of the open door policy, which is the basis of the open door policy.

The "Closed Door" policy, as represented by Mr. Wood, on the other side of the argument, proposes the organization of the progressive movement on the basis of the closed door policy, which is the basis of the closed door policy. It is the basis of the closed door policy, which is the basis of the closed door policy.

MADE MONEY BY SELLING CATTLE IN BRITISH MARKET

A great deal of interest has been centered upon the shipment of cattle made by Geo. P. Root and A. Johnson from Wetaskiwin to the British market.

The following is a statement in connection with the transaction as submitted to The Times by Mr. Root:

89 Steers bought Feb. 4, 1921	
wgt. 88150 lbs. at \$7.70	\$6787.50
Hay	940.00
Chop, gasoline and hauling	1142.50
Labor	370.00
Pasture	207.00
Total Cost	\$9427.50

Shipped 53 Steers Aug. 22, 1921, 107644 lbs. at \$7.75 = \$756.50
Sold 1 Steer locally 15550 lbs. = \$7.50
Total Receipts \$7343.40

Saving in shipping to Britain, not including expenses of Mr. Johnson Liverpool and return 210.50 = \$9417.50

These cattle were pronounced by A. S. Pown, an experienced cattlemen and feeder, the best bunch shipped from Alberta, and a Montreal paper said they were the best bunch shipped from that port this season.

Mr. Root has been breeding and feeding steers in Alberta for the past thirteen years and is of the opinion that more money has been lost in grain feeding steers during that time than has been gained. The gross steers in the shipment brought \$5.00 and \$5.50, and for cost, \$2.75.

Messrs. Root & Johnson were very fortunate, as the government lost considerable money on the consignment they sent over some time ago.

CITY COUNCIL EXTENDS TIME OF DISCOUNT

F. C. Lowes, of Calgary, Wants Norwood Sub-division. Permit for Building on Railway Street. Street Light Placed on Corner of Miquelon and Stanley. Tender Given for Printing Tax Sale List. Want Civic Holiday, Monday, October 17th.

The regular meeting of the city council was held on Tuesday evening with all members in attendance except Mayor Fowler. Deputy Mayor MacEachern in the chair.

After the adoption of the minutes of the previous regular and adjourned meetings, an offer was read from Watson & Pelling for office building on Railway Street, offering \$25.00 for same. The matter was referred to the finance committee with power to act.

Mayor Fowler reported that a permit had been given to Edwin Johnson to erect a metal clad building on Railway Street east.

A. C. Dunne reported respecting his assessment. As there was a clerical error therein, the secretary was instructed to write off the difference.

Longhead & Taylor voted respecting payment of taxes in instalments. The matter was referred to the city solicitor to be dealt with.

A resolution was passed to pay J. Baxter balance of an account as special constable.

The action of the electric light committee in placing a street light at the corner of Miquelon St. and Stanley St. east was adopted.

The fire and water committee recommended the installation of a hydrant on Railway street east, replacing the one broken some time ago. The work will be proceeded with at once.

An account of W. P. Meredith for \$42.50 was passed for payment.

Tenders for the Tax Sale pamphlet were then read as follows: The Times, \$32.00; Star, \$38.50. The tender of The Times was accepted.

It was moved by Ellis and Richards that a recommendation be made to the Mayor to declare Monday, October 17, a civic holiday to indemnify the Norwood Sub-division.

The secretary treasurer reported that \$425,424.34 of current taxes had been paid by September 30, as compared with \$465,000.00 last year.

The police report for September was read and adopted.

Bylaw 420, appointing James S. Watson street and building inspector for Wetaskiwin, was read three times and finally passed.

The public works committee was instructed to draw the attention of the building inspectors to the dangerous condition of the Alberta Hotel property and it was given power to act.

It was moved by Ellis and Compton that the city solicitor be authorized to take the local papers to the effect that a discount of 5 per cent will be allowed on the payment of taxes up to November 1st of this year.

The supplementary pay roll amounting to \$151.50, was passed for payment.

WEDDINGS

WING - JENSEN

The marriage took place at the home of Mr. Wing, of Wetaskiwin, to Mr. D. Wing, of Ponoka. Rev. J. M. Pritchard performed the ceremony. Mr. and Mrs. Wing will reside west of Ponoka.

MINUTES OF M. D. OF MONTGOMERY

The regular monthly meeting of the council of the Municipal District of Montgomery, No. 435, was held in the City Hall on Saturday afternoon, September 24th, 1921.

The meeting was called to order by the Mayor, A. S. Craig. Councilors present were L. H. Neville, T. J. Jene, P. Freeman and D. E. Wilson.

On motion of P. Freeman the minutes of the previous meeting were adopted.

The communications in the hands of the secretary were then read and discussed.

The mode of assessing lands was then discussed and the secretary was instructed to prepare a list of the lands assessed last year and submit it to the councilors in the different divisions.

The matter of stock being killed on the railroad was again taken up and the figures will be submitted to the secretary of the Association of Municipal Districts, with the object in view of persuading the railroad to install some kind of cattle guard that will prevent stock from getting on the track at the crossings.

The regular monthly bills and pay sheets were then passed for payment.

There being no other business to come before the meeting, it was moved by Coun. Jene, that council adjourn.

The Peace Hills Chapter of the I.O.O.F. will meet for the first time this season at eight o'clock on Tuesday evening, October 11, at the home of Mrs. Walker, Criterion Apartments.

J. D. Cowan was in Calgary the first of the week on business connected with the Hall Insurance Board. He has a hall insurance adjuster during the past season.

E. E. Sparks, M.P.P., went to Edmonton on Wednesday to attend the banquet tendered the cabinet ministers and members of parliament by the city of Edmonton.

Principal F. S. McCall, of Alberta College North, was a Wetaskiwin visitor on Tuesday in connection with the launch of the cabinet ministers and members of parliament here. It is probable that a teacher of violin will be added to the staff here.

Messrs. F. C. Lowes and Fred Johnson of Calgary, were in the city this week on business, and shaking hands with a few of their old-time acquaintances. They are endeavoring to obtain sole ownership of the land in the Norwood sub-division which came back to the city on account of the non-payment of taxes, a couple of years ago.

SUPPORTER OF GOVERNMENT TO BE CHOSEN

A political convention of supporters of the Heighway Government will be held in the Angus Theatre on Monday, October 10th, 1921, at 2:30 p.m. for the purpose of selecting a candidate for the coming election. Officers will be elected and organization completed. Addresses will be given by prominent members of the party.

Alberta has this year shipped nearly 2,000,000 pounds of wool, most of which has been bought by Canadian buyers, according to J. W. Hinton, vice-president of the Co-operative Wool Co. The actual figures of shipment to date amount to 1,927,761 pounds, and the estimate that 20,000,000 pounds of wool remain in the hands of growers, is a small lot.

BUSH FIRE RAGING WEST OF YEOFORD

Word was brought to the city on Tuesday that a big fire was raging in the back Lake district. This is one of the worst fires for many years, as it is reported to be about twenty-five miles in length. Many of the threshing crews in the west are out fighting the configuration, which is travelling towards the east.

*Ask Lawson & Company Limited, of Wetaskiwin, Alberta, to make and made to your individual requirements from \$10. up. 26121.

CANADIAN BIBLE SOCIETY CANVASS

Will the people of Wetaskiwin bear in mind that the annual canvass for the Canadian Bible Society will soon be on.

All lovers of God's Word should be interested. The following are some of the reasons why we should support the bible society:

1. Because this society issues as many copies of the Scriptures each year as all other kindred societies together.
2. Because it publishes its editions in almost all the poorest people can afford to pay.
3. Because it spends thousands of dollars each year in grants of Bibles to religious and philanthropic agencies.
4. Because it has helped to send out the Gospel in 520 different languages in the different parts of the world.
5. Because in Canada there are 119 dialects spoken and the Gospel printed in 75 of them.
6. Because the editions printed in our own language.
7. Because hundreds of millions of the inhabitants of the world are still without the gospel printed in their own language.

THANKS

The ladies of the Scandinavian Hospital Aid drive through the columns of The Times to sincerely thank all those who in any way contributed to the success of the supper held on Saturday evening last. The amount of \$160.00 was realized.

13 U.F.A. Members

Subject to Recall

It is not true that all of the U.F.A. members are under the direct rays of their home organizations by reason of having given their signed resignations before the election. Only thirteen out of the total of thirty-eight members have given such a pledge, thus being subject to recall if the organization which nominated them is displeased with the stand which they may take on any one question. Mrs. W. Farley, Lacombe, and now minister without portfolio, was one of the number, it is known, who declined to submit to the recall system, but insisted upon the right of personal independence of thought. Of the cabinet ministers, at least two, Premier Greenfield and Attorney General Brown, are understood, as neither of them has yet run his election. Even in the case of the men who have resigned in advance, it is not true that any one member will then have the right to appear before the convention, and state his case; and the final recall will not be made until such a hearing has been given. There are some facts that the provincial government wishes to put before the general public, in order to correct erroneous impressions.

The Country

Newspaper

Ex-Governor David R. Francis, of Missouri, once said the following of the country newspaper: "Each year the local newspaper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor in proportion to his means, does more for his town than any ten men in the business he ought to be supported—not because you like him or admire his writings, but because the local paper is the best means of communicating with the community. It can make, it may not be the brilliantly edited or crowded with thought, but financially it is, of more benefit to the community than the preacher or teacher."—R.

Coast Wants

Alberta Mutton

That there is an excellent opportunity for the expansion of Alberta's mutton trade with the coast province, is the burden of a report brought back by the provincial live stock commissioner, who has returned from an investigation into the possibilities of better business with that market. Before Alberta can secure its proper share of the coast trade, however, it will be necessary to breed a better type of mutton sheep and to send them into better condition than those now supplied from the ranges of southern Alberta. The supply, moreover, must be continuous throughout the year. At the present time the Vancouver and Victoria markets are consuming approximately 120,000 sheep per year and of these Alberta supplies only about 10 per cent. British Columbia itself supplies only 10 per cent, while the balance comes from areas across the line and from New Zealand. As to the beef supply, the commissioner found that about 55 per cent was furnished by Alberta.

Unnecessary Precaution

The bottom step was broken off the street car. The conductor was polite, and as a fashionably dressed young lady started to board the car, he called out: "Watch your step, Madam!" "It won't be necessary," replied the pretty young lady, as she elevated her one knee almost to her dainty chin, in an effort to place her foot on the top step. "I'm sure these gentlemen behind will do that for me."

October "Rod and Gun"

The October issue of Rod and Gun in Canada will be permeated with great pleasure by all those to whom the great outdoors is calling. "Nova Scotia" is a beautiful number written in a fascinating original way by Percy B. Nobbs. H. Montague Batten's story "Harnass" the "terrible" is of an interesting nature and will prove of intense interest to both young and old. "The Indians' Own" by F. V. Williams will doubtless attract the interest of every reader. This together with stories and articles by the most clever nature writers Robert Pagan Lincoln, A. Bryan Williams, J. W. Wineson, also the late and greatly to the value of the magazine and in their own mysterious way impart to the spirit of the autumn. Rod and Gun is published by W. J. Taylor, Woodstock.

Our Bachelor Princes

A few nights ago I mentioned how eagerly London society watches to see which of our bachelor princes will be the first to succumb to Cupid's darts, or at least the first whose matrimonial intentions are made public. The present situation of these young princes and a very charming young princess in the royal household, all of an age when royal personages are usually either married or engaged, is almost without modern precedent. The betting among court frequenters, if one may use so sporting a term in this relation, without offence, is rather on the King's second son, the Duke of York, being first off the mark, although in the natural course of events, the Prince of Wales might have been expected to lead the way. There are interesting whispers on this subject and it is pretty certain that when an announcement is made it will be found that both the Prince of Wales and the Duke of York have not allowed their hearts to stray from their own country. Two ladies' names are much talked of as possible royal brides, one the eldest daughter of an historic Scottish peerage mentioned in Shakespeare's "Macbeth," and the other a daughter of a very illustrious English dukedom associated in title, at all events, with the west country.—London correspondent.

SAND

I observed a locomotive in the railroad yard one day. It was waiting in the round house where the locomotives stay. It was waiting for the journey. It was cooled and fully manned. And it held a whip hand over the community to recall them to it. All the resignations will be dealt with, if occasion arises, by a committee, and the member will then have the right to appear before the convention, and state his case; and the final recall will not be made until such a hearing has been given. There are some facts that the provincial government wishes to put before the general public, in order to correct erroneous impressions.

It appears that locomotives cannot always get a grip on their slendor but they will then have the right to appear before the convention, and state his case; and the final recall will not be made until such a hearing has been given. There are some facts that the provincial government wishes to put before the general public, in order to correct erroneous impressions.

If you strike some frigid weather and discover to your cost, that you're liable to slip on a heavy coat of frost. Then some prompt, decided action will be called into demand, and you'll also realize the wisdom of the bottom is you haven't any sand.

You can go to any station that is on life's schedule when, if there's fire to the building, and you'll reach the place called life at a rate of speed that's grand. If for all the slippery places you're a good supply of sand—Selected.

"APHRODITE"

There will be no increase in prices above the regular scale for the opening night scene of "Aphrodite" when this massive spectacle comes to the Empire, Edmonton, for 3 days, commencing Thursday October 20, with a matinee Saturday.

Notwithstanding the fact that both New York and in Chicago last winter, where this sensational play recently shattered all previous records for receipts in the history of the theatres, the play was charged at the box office, while many choice seats which fell into the hands of speculators, for as much as one hundred and two hundred dollars apiece.

With a cast of 300 people, and a wonderfully gorgeous production, comprising 19 scenes "Aphrodite" marks the very pinnacle in stage achievements. It tells the story of Demeter, the sculptor, and Chrysis, the Gaietan courtesan, who exists as the proof of his love the theft of the Phoebe mirror, once owned by Sappho, the ivory comb of Queen Metier, the last of which requires the murder of the past 70 years. You can always rely on it in time of need to do just what you like for it.

A NEVER FAILING REMEDY.

Mrs. Fred MacDonald, Sydney Mines, N.S., writes:—"I take great pleasure in recommending Dr. Fowler's Kidney and Bladder Pills as a never failing remedy for summer complaint. I am raising a family of ten children, and during the summer and autumn months when this complaint is so prevalent I can not do without it. I have never used a bottle of it in the house."

NEW CATTLE POOL WELL SUPPORTED BY THE STOCKMEN

Alberta cattle men are watching with much interest the cattle pool that has been brought into existence by the United Grain Growers Limited, and also the experiments that are being made by the Stock Growers' Protective Association. Work is momentarily expected now from W. F. Stevens, the secretary of the latter organization, as to the prices that have been realized in Liverpool on the initial shipment, as the time limit allowed by the British authorities in connection with animals imported for immediate slaughter will be up by the end of the week.

So far as the United Grain Growers Limited, are concerned, the scheme they have adopted is receiving very considerable support. At least 250 head of animals will be sent forward each week until the close of the St. Lawrence season.

One of the satisfactory features of the pool is that stockmen will not have to wait for an indefinite period before receiving payment for their cattle. As a matter of fact, immediately the animals are graded at Winnipeg, advances are made. These are fixed No. 1 steers, four cents; No. 2 steers three cents; heifers, three cents; cows 2 1/2 cents; and bulls, two cents. Participation certificates are issued just in the same manner as those dealt with by the late wheat board, and all expenses are paid the balance of receipts will be divided between the various shippers according to weight and grade of cattle that they ship.

It is understood that the United Farmers of Ontario will co-operate with the western provinces in this movement, although nothing definite to that effect has as yet been announced. Every effort is to be made to prevent the animals from being sent to the coast.

For DIARRHOEA DYSENTERY AND ALL SUMMER COMPLAINTS.

GIVES INSTANTANEOUS RELIEF

It has been a household remedy for the past 70 years. You can always rely on it in time of need to do just what you like for it.

A NEVER FAILING REMEDY.

CONFERENCE ON MEAT INDUSTRY IN ALBERTA HELD

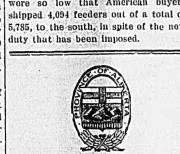

Edmonton, Oct. 4.—A conference on the present condition of the meat industry in Alberta, was held here between representatives of the three largest packing establishments in the province and the minister and officials of the agricultural department. P. Burns, and Wm. Donald, for the Burns Company; S. W. Land and J. M. Ryan for Swift & Co.; and A. G. Gahner, for the Gahner Company, made up the delegation.

W. L. Carlyle, of the Prince of Wales ranch, and G. H. Hutton, who are about to begin their work in selecting the livestock for the international show at Chicago, were also present. Ways and means of improving the meat trade throughout the province were discussed at considerable length, and some attention was also given to the question of marketing. It was the feeling of the government officials and packers that something should be done to put the industry on a better and more profitable basis, and the matter is to be further looked into from both sides.

See the samples of this season's greeting cards at The Times office.

Send the cattle being shipped in this way that they will become a glut on the British market, and very effective arrangements have been completed to have the cattle sold at the best possible advantage.

It is considered by critics that the movement has been made at a most opportune time when the local markets are so depressed. It is pointed out that in August last the prices were so low that American buyers shipped 4,000 head out of a total of 5,785, to the south, in spite of the new duty that has been imposed.

HOW BIG IS A HOUSE?

The lecturer was describing and advocating modern, humane and intelligent methods of dealing with young children. As he paused for an instant, a grim-faced young woman rose up. "Will you answer me one plain question?" she challenged him. "This shilly shallying with children is all right at times, but there are times when nothing but a good spanking will do. What do you do when a child stamps his foot and says 'I won't do it!'?"

The lecturer waited. The questioner asked nothing to her question. "Do you call that a plain question?" he asked in an incredulous tone, as though he did not believe his ears.

"I certainly do," she said with satisfaction.

"Well, Madame," said the lecturer, "I will answer that plain question if you will answer one of mine. 'How big is a house?'"

The woman stared. "That's not a plain question. What sort of a house?"

"Any," said the lecturer. "You can't answer me till I have told you what sort of a house. Well, I can't answer you until you tell me what sort of a child."

"I don't see what that has got to do with it," said the woman, but what taken aback.

"Well, here's a case. A little child of three, very nervous, sensitive, recently over an illness, has been on a long, hot, railway journey. At the end, exhausted from lack of sleep, excited to the point of distraction, by the noise, and a thousand fears he cannot explain, with a beginning of stomach trouble from the irregular food he is told by someone who does not understand little children, to carry a satchel much too heavy for him. Perhaps, you would expect a 3-year-old to say under the circumstances, 'I'm sorry, but I'm not feeling very well and it is really quite beyond my strength.' But I don't blame him for stamping his foot and screaming. And certainly he does not deserve the same treatment as a loutish boy of fourteen who refuses to obey a reasonable request. And yet you expect some answer that will be the same for both these cases."

Every child is different from every other child, and only his mother is in a position to know how to take him. All sets of circumstances are different from all others and only those who know all about the case have any chance of guessing what is the right thing to do. You must do that most difficult of all things, think and think hard, before you know what is the right thing to do. But before you begin to think, just remember that if a child stamps his foot and says "I won't do it" it is because you have brought him up wrong. When you see a dog that habitually snarls and snarls his teeth, you do not say "What a disagreeable nature that dog has!" You say: "Heavens! what a brutal master the poor creature must have had!"

A fourteen acre crop of sunflowers at Lloydminster, yielded 234 tons at a cost of \$2 a ton, including ten per cent for depreciation of machinery.

Approximately 500,000 bushels of wheat and coarse grains are being handled daily in Alberta by the Canadian Pacific railway. It was stated at the office of the general superintendent that there are an ample supply of cars on hand and that the indications were that the present crop would be sent to the head of the lakes in record time this year.

There is sufficient coal in the Drumheller field, Red Deer valley, to last the trade for 500 years, according to estimates. The output of the 25 mines in operation there today will reach 1,400,000 tons this year, an average of 225 car loads per day, and wages paid will exceed \$4,000,000. Thirty thousand acres have been filed on by the mining companies. The coal is distributed by the Canadian National Railways throughout the prairie provinces as far east as Winnipeg.

An increase of less than 1200 automobiles has been registered in the province this year, compared with the usual increase of 4000 each year. The number of autos licensed in the province in 1920 totalled 38,015. This year to date, the total registered is 39,200. It is not believed the 40,000 mark will be reached this year. The half rate license goes into effect next year, which may induce more purchases all through the province.

WILLIAM BERRY Manager

A Girl Fooled

Sonora Dillon looked longingly at the plain little black hat. A plain black hat would be such a change. She took it in her hands and her lips opened.

But she did not speak because Adele Cooley took the hat out of her hands in that quick, decided way of hers. "My goodness, Sonora," she exclaimed "you'd never dream of getting that grandmotherish old thing! Just imagine how you'd look in it. Here's what you need and what you must really have." And she placed on Sonora's neck head a hat that flamed with cherries and cherry colored ribbon.

Sonora Dillon had been wearing red hats and red dresses for six years and all that time she had secretly hated them. But she wore them because Adele Cooley said she must. Adele had chosen the color for her in the first place and had insisted on her keeping it. And, because Sonora could not afford more than two hats a year, one for winter and one for summer—and the same way with her frocks and coats—she was always dressed in red.

Sonora was very grateful for Adele's interest in her. As a matter of fact, very little interest had ever been shown her. She had come up as she could at the hands of a grumpy old aunt, and as soon as she was old enough, she had gone to work. She had worked for Adele Cooley in the dark little room back of the millinery shop for six years. There was always a smell of artificial flowers and ribbons

in that back room, but Sonora managed to keep her health and courage. Sonora and Adele lunched together in another room that was adjoining. Sometimes when there was a press of work they dined along in the same way and Sonora did not get home to Aunt Kate's before 11 o'clock. At the next morning she was back at her work for even though she considered Adele to be her friend she took no more liberties than if she were a stranger.

Adele Cooley was reckoned to be a "smart woman." She had started in the millinery business without a dollar and she was making good. Her hats were on every head on Braben, and those who wore them paid for them too. She got fancy prices for some of the hats Sonora made in the little back room—\$2, even \$40. But she did not, raise Sonora's wages, and Sonora did not ask. She was thankful that Adele was good to her and gave her work to do, and if Adele had asked her to wear bright yellow instead of bright red she would have done it.

Now Adele had got her to buy another red hat. When she wore it home that night Aunt Kate said to her "Now all you need is a bright green petticoat to make you look like Ferguson's parrot."

Sonora was sure that Adele must know what was best for her. Still she looked in the glass anxiously. Her cheeks were almost as red as the cherries, and her eyes looked bright and hard. She wondered how she would look in the little black hat it might have a soothing effect. But the black hat was out of the question. She had all the hats she could afford for that season.

It was a wonderful night, and Aunt Kate wanted to go over to the park to have the hand play. Sonora went with her and they sat on one of the benches which was in the shadow. Aunt Kate loved to watch the people, but Sonora loved to hear the music. Sometimes she thought that if a needle had not been put into her hands so early she might have been a musician.

She was thrilled by the music when Aunt Kate nudged her arm. "Look, Sonora! There's Adele and Lent Coomer is with her."

Sonora started slightly and her red cheeks lost their color. On a bench under the nearest are light sat Adele. She was as blond as a fly in that light and she wore the softest, palest of gowns, a shimmering dress of small hat and shoes to match. Adele, beside her gazing at her and quite oblivious of the people or band, was the only man that Sonora Dillon would ever care about.

They could not see her or Aunt Kate for the shadow hid them, and Sonora's agonized gaze could take in all the details of Adele's charm and Lent's admiration.

Sonora was not of the quickest wit. She was merely slow and contenting, and very very sweet, but gradually things unveiled themselves to her—that big box that Adele had brought home with her from her last visit to the city and whose contents she had never permitted Sonora to see. When Adele went forth she did not wear red though she professed to love it. She wore moonlight, misty things, that

half obscured her and rendered her mysterious and lovely.

"That's going to make a match," Aunt Kate said. "She knows just how to fix herself up to please him. She's older than he, but land, he'll never know it. She's clever as a fox, but Adele Cooley, just like her old man before her. And I know her like print."

Sonora suffered. She had loved Lent as a child and girl, and now she was loving him with all the intensity of a woman who saw in him the one thing that made life worth living. There had been a time when she had thought he might care for her, but that time was six years past. He never had paid any attention to her since she went to work for Adele Cooley.

"If you," said Aunt Kate, "didn't fix yourself up like one of them scarlet tangers you might have got Lent for yourself. And a nice, true, steady boy—never lived. I'd have put great faith in your future if you had got Lent. But so, you had to let Adele go and doll you up in every red you she had in her establishment. You don't see her wearing it."

"No," Sonora peeped. It was queer that Adele never wore red herself.

"Possibly," said Aunt Kate, "she knows that Lent hates it."

"Hates red?" Sonora's heart seemed to turn over in her side. "How do you know, and what makes you think so?"

"Most men do unless they're sports and then sometimes they'll stand for a red necktie. There's no sporting blood in the Comers. I know 'em from a way back. Well, I guess I'll go home. Sonora, I'm going away after her aunt. She did not sleep that night, and during those hours of vibrant wakefulness she got a good many things disentangled. Adele did not wear red; she made Sonora wear red. Lent hated red. It was just like one of those picture puzzles. "That hat, but with red cherries. She's tried and tried to sell it, but nobody would have it but me." Sonora thought and finally she went to sleep.

She was late to work the next morning and Adele was cross. Sonora did not know that the gray georgette and its accessories had failed with Lent Coomer.

"I wish," she said when she and Adele were alone with their lunch, "that you'd let me trade that red hat for the little black one, Adele. I'm tired of red." She did not see Adele's face change and she went on wistfully "I'm going to get that little black suit in Harty's window, and some white blouses for ordinary wear."

"Somebody left you a fortune," sneered Adele.

"No," but Aunt Kate gave me \$50. She insists that I never wear red again and, of course, I want to please her."

"I see," said Adele in a voice so strange that Sonora looked up at her sharply.

Sonora got the little black hat and the black suit and the white blouses. These articles made all the difference in the world with Sonora. They toned down her exuberant color and made her unobtrusive and stylish and very attractive. At last she was wearing clothes she loved and she began to hold up her head and take on an air of poise.

At the next band concert Lent Coomer came over and sat down beside her aunt. "Here you are, Sonora," he said. "I'm so glad you laid off that red. I hate it even in roses. Does that sound awful to you?"

"No," Sonora laughed softly. "It sounds good." She looked over at the bench under the archlight. Adele sat there in her gray georgette, but she sat there alone.

Final approval of the project to build a home for mental defectives on the Fort trail, for which property was purchased by the Stewart government, has now been given by Hon. Perrin Baker, minister of education, and the work will be proceeded with along practically the same line as called for in the original plans. The details of the building scheme may be changed in some minor respect, but the property will be held out substantially as drafted by the provincial architect.

HEART WEAK NERVES SHATTERED.

If you are in this condition there is only one thing to do, take a course of

MILBURN'S HEART AND NERVE PILLS

and see how quickly they will regulate and strengthen the heart and restore the whole nervous system to its normal condition. W. F. Farnes, 14 Seaton St., Toronto, Ont., writes—"I was left with a weak heart and in a run-down condition from the 'flu.' My nerves were badly shattered, and I had such pain in my breast that I could not sleep at night. I took several doctors' medicines without getting any better. My husband took me to Dr. Milburn's Heart and Nerve Pills and after I took one box I felt much better, and after I had taken three boxes I have been well and not bothered

Milburn's Heart and Nerve Pills are sold at a box of all dealers or mailed direct on receipt of price by The T. J. Milburn Co., Limited, Toronto, Ont.

A CARD OF GREAT IMPORTANCE

Sometimes a theatrical event happens of such great importance that it stands out above everything else during the current season like a beacon light in the history of human progress.

Such an event is now about to occur in Edmonton. Every one in a while I have the pleasure and the honor of presenting some extraordinary attraction of great magnitude. Owing to my previous experience on special occasions, I desire to serve much more to my patrons of an opportunity that should not be neglected, so that they may secure seats well in advance.

The extraordinary attraction which I am now about to present to my patrons is the big spectacular and sensational offering "Aphrodite", which created such a furore in New York a season ago at the Century Theatre in that city, and which was the sensation of Paris, when originally presented there prior to its New York production.

I have just completed arrangements with Messrs. F. Ray Comstock and Morris Gest whereby this gigantic offering in all of its Oriental beauty and magnificence will be presented at the New Empire Theatre for three days commencing Thursday, October 29th, at 8 p.m., Matinee on Saturday.

Theatre-goers who keep in touch with theatrical events do not need to be reminded of the extraordinary demand for seats which took place in New York when "Aphrodite" was first presented. Tickets were eagerly bought up by speculators who sold them for as high as a sensation. The theatre was packed to the doors for the entire course and thousands of people were turned away during the extraordinary New York engagement.

Now Messrs. Comstock and Gest are presenting "Aphrodite" on tour with this enormous company of 300 people, with 10 big scenes "Aphrodite" when done in Paris was hailed as the world's greatest and most sensational play. It has since duplicated that success in New York, Chicago, Philadelphia and Boston. It will be presented in Edmonton in all of its resplendent glory.

Mail orders for all performances will now be received. Enclose self-addressed envelope for return of tickets and send proper registry. Prices: Nights, \$1.00; \$1.50; \$2.00; \$2.50 and \$3.00; Saturday Matinee, \$1.00, \$1.50, \$2.00 and \$2.50.

I believe the engagement of "Aphrodite" will be the most sensational successful event in the history of this theatre.

Veteran of Civil War Still Hale and Heart

GEORGE D. SHAW, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier, and twenty-five years stronger, express what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut Street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to

be numbered. I've been so wonderfully built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the 'Sixties' who are not feeling right to give it a trial, for I am sure it would put them in line again as it has me. For a man of my age to have no physical ailment, to be so full and strong and enjoy life as he did twenty-five years ago is certainly something to be thankful for there is nothing too good I can say for Tanlac."

Tanlac is sold by leading druggists everywhere.

TIMES ADVERTISEMENTS BRING RESULTS

NORTH ALBERTA CROP GOOD, BUT IS NOT UNIFORM

Many districts in northern Alberta will average thirty-five bushels of wheat to the acre, and this is over quite large areas, according to H. A. Craig, deputy minister of agriculture. The crop this year is not uniform, however, and while some districts have such a rich yield, others by reason of cultivation, drought, grasshoppers or outworn, have brought down the general average. For the entire province, the estimated yield will be eleven bushels of wheat to the acre, but for the northern part of the province taken from a line east and west through Red Deer the average will be nearer 21 bushels, in the opinion of the deputy minister, who has travelled much of the province to form his estimate. He estimates that the output of wheat this year, will be about 50,000,000 bushels, and he states that the C.P.R., which arrived at their estimate through entirely different sources, have come to the same estimate for the province. Last year the wheat yield for the province was 53,000,000 bushels.

The quality will, in all probability, be as high as last year, which was well over the average, although there was some worry over the rains, which came just after the crop was harvested.

In the northern part of the province, the estimate of oats to the acre is estimated to be about 40 bushels, this year, and for the entire province, 33 bushels to the acre. This output of 115,000,000 bushels for the province, last year will probably be reduced to 59,000,000 this year. While not a great deal of the threshing is as yet completed, it is thought that the quality is quite up to standard. The ripe oats were practically all harvested before the frost, but quite a lot of the green feed was caught.

The barley crop will compare favorably with last year, the average being estimated this year at 25 bushels to the acre. Most of the barley is grown in the northern part of the province.

Rye is estimated at 16 bushels and flax at 6 bushels to the acre this year. The average of the different kinds of grain this year is 1,477,000 of wheat, 2,719,000 oats, 467,000 barley, 195,000 rye and 90,000 flax.

The potato crop is yielding good where it has been harvested so far. There is a heavier average than usual, and for the most part quite free from scab.

MUST HAVE NAME ON LIST OR NO VOTE ON ELECTION DAY

The war time elections act of 1917 is dead and gone forever and will have no application to the forthcoming elections. Nor will the Scott act and elections list be of any legal force.

Under the new elections act a British subject by birth or naturalization is entitled to vote if he or she is 21 years of age, resident in Canada for one year and in the constituency for two months at the time of the issue of the writ. In cities and towns of over 2500 population a voter is to be allowed to vote must have his or her name entered on the voter's list before election day.

In towns and villages of 2,500 or less of population and in rural municipalities, persons otherwise qualified whose names are not on the lists, may vote by declaring on election day that they are entitled to vote, and at the same time have a voter's list drawn up by the returning officer on the list, and declare to the qualifications of the applicant.

Once the election writs are issued, lists will be revised in every polling division, in Canada, and the basis of these lists will be the provincial lists as issued in provincial elections any time within the past two years, except in such provinces where, since the provincial elections, new lists have been prepared by sheriffs, or municipal or other officials, for or as a basis of provincial lists. To any such provincial lists will be added the names of persons now qualified and names of non-qualified persons may be struck off. In provinces where there are no provincial lists, then the lists are to be wholly prepared for the present elections. Notices will be posted to call the polling divisions, rural and urban, setting forth the days given to the revision of the lists.

The rural registers will furnish a typewritten or hand written copy of his or her preliminary list fifteen days before polling, to each candidate, and a copy of the additions not later than six o'clock the morning of the polling.

The rural lists will not be printed as they are really open until the polls close election day.

In cities, towns and villages of over 2,500 population, the revising officer shall provide for the printing of the lists and deliver copies to the candidates at least four days before the polling day.

In this regard, it is well to remember that in urban municipalities, the names are only added by application in person, while in rural divisions the

IMPLEMENT FIRMS CUT THEIR PRICES

Two of the leading Canadian firms manufacturing farm implements, the Massey-Harris Co., and the Cockshutt Plow Co., have announced reductions in prices that will prevail next year. The new prices will average about 20 per cent lower than prices prevailing at the present time and will apply to all finished implements stored at the different branches throughout Canada.

The reductions are based upon estimates of the lower cost of production, although the implements now being offered for sale were produced under high cost conditions.

WANT DRAINAGE DISTRICT FORMED NEAR BEAR LAKE

When the irrigation schemes at present being planned in the southern part of the province are completed, there will be fully three-quarters of a million acres benefited according to the estimates of those closely in touch with the situation. This will mean the holding of a great number of sections on the land, for while perhaps only a few acres of a quarter section may be actually served with water, it will probably be enough to give him his living and make available the rest of his farm for grazing.

Actual work is more or less pending the decisions of the international waterways commission, which recently held its sitting at Lethbridge. Arrangements for temporary financing of the United Irrigation Company, which will serve the Carleton district, are being speeded up, and it is probable that work will be started there next month.

A group of people from west of Wetaskiwin are pressing for the formation of a drainage district around Bear Lake. They have petitioned the government for leave to organize into a district, but no action has been taken as yet.

Actual work is more or less pending the decisions of the international waterways commission, which recently held its sitting at Lethbridge. Arrangements for temporary financing of the United Irrigation Company, which will serve the Carleton district, are being speeded up, and it is probable that work will be started there next month.

In close daily contact with markets and exchanges, we are in a position to offer helpful co-operation in the transaction of your affairs.

IMPERIAL BANK OF CANADA

WETASKIWIN BRANCH: H. W. WRIGHT, Manager.
Branches also at Bismarck, Minn., New Norway and Portland.
Sub-Agency at Edmonton Tuesdays and Fridays.
Sub-Agency at Drummond open Mondays and Thursdays.

PONOKA ASYLUM IS NOW MORNINGSIDES MENTAL HOSPITAL

Alex Ross, minister of public works and administrator of the provincial jails and asylums, in considering the proposed change of name for the asylum at Ponoka to that of the Morningside Mental Hospital. "A good deal of odium has attached to the word asylum in the past few years," said Mr. Ross, "and it has become offensive of the levity with which it is handled, not only to the district in which it is located but to inmates of the asylum. If there is no serious objection to the new name offered, it is possible we may change the name to the Morningside Mental Hospital. Morningside is a station close by the present asylum, and also stands for something, since it happens to be the name of the famous mental hospital at Edinburgh, Scotland."

Thirty cents an hour is regarded as a fair standard wage for workers on highways in the rural parts of the province, according to a statement made by Frank C. Biles, minister of works for Ontario.

GRAZING LEASES IN ALBERTA NOW TWO CENTS ACRE

Two cents per acre instead of four cents for grazing privileges in Manitoba, Saskatchewan, Alberta and the Peace River tract, and Kamloops division in British Columbia, are provided for in an order-in-council. The reduction is for one year, from October 1, and has been made in order to assist the livestock industry in view of the present high prices of fodder and the low prices obtainable for cattle.

MINE OPERATOR IS SHOT DOWN

John C. Coward, well known mine operator in Calgary, Drumheller and Carleton, was shot through the head and killed by an unidentified assassin on Wednesday night on the road between Carleton and the Peoria coal mine, of which he was the new manager. His body was found by his wife, who went out to search for him and his auto. He leaves five young children.
